## Your guide for transferring:

- Transfer students with an earned Associate of Arts or Associate of Science will only need to fulfill Career Readiness.
- At least 64 credit hours must be taken at a four-year institution; at least 128 credit hours are required for graduation.
- Some courses may have pre-requisites; please consult the course catalog. One course may fulfill a requirement in up to three different designations.
- Global Understanding can be fulfilled by Study Abroad, including May Term (indicated by \*).
- Students with less than 28 transferable hours will need to complete CARD 110, a 1-credit transition course.

## GENERAL EDUCATION

| Requirement                                                                                                                                                 | Course Number/Title                        | Credit | Grade |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------|--------|-------|
| Composition                                                                                                                                                 | RHT 101 @ TC                               |        |       |

## Biology, Health Professions Track B.A.

The B.A. degree in Biology provides the same comprehensive core, research experience and capstone as the B.S. degree, but its two tracks are tailored to be compatible with a second major (Biology Professions track) or with the requirements of professional schools in such allied health areas as nursing, physical therapy, physician assistant, occupational therapy, pharmacy, or optometry (Health Professions track). Students choosing the Biology Professions track need an additional major in a complementary area such as environmental studies, neuroscience, physics, mathematics, computer science, business, etc. Students preparing for secondary education should complete the B.S. Biology Education track. Students planning to continue to graduate programs in the biological sciences or to medical, dental or veterinary programs should consider the B.S. degree in Biology instead.

## Major Requirements

| Core Courses                                                     |              |        |       |
|------------------------------------------------------------------|--------------|--------|-------|
| Course Name                                                      | Equivalent   | Credit | Grade |
| BIOL 195 - Investigating Biology or BIOL 205 - Exploring Biology |              |        |       |
| BIOL 210 - Cells and Systems                                     |              |        |       |
| BIOL 220 - Ecology and Evolution                                 | BIS 205 @ TC |        |       |
| BIOL 230 - Genes and Genomics                                    |              |        |       |
| BIOL 240 - Biostatistics                                         |              |        |       |

| Capstone                                           |            |        |       |
|----------------------------------------------------|------------|--------|-------|
| Course Name                                        | Equivalent | Credit | Grade |
| BIOL 400 - Capstone Studies in Biological Sciences |            |        |       |

| Research Experience                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |  |  |  |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|--|--|
| Students must complete a research experience which is presented in BIOL 490 - Seminar; students take the zero-credit BIOL 290 - Seminar once as participants/evaluators and the two credit 390 - Careers in Biological Sciences once before presenting. The research experience could be any of the following:<br>Complete the BIOL 400 research course<br>Complete an on- or off-campus summer research program<br>Complete an independent research project with a faculty member<br>Complete a research-based internship or other project approved by the department chair |  |  |  |

| Health Professions Track Courses     |              |        |       |

| BIOL 360 - Molecular Biology of Cancer     |  |  |  |
| BIOL 370 - Mechanisms of Development       |  |  |  |
| BCHM 365 - Principles of Biochemistry      |  |  |  |
| NEUR 310 - Advanced Molecular Neuroscience |  |  |  |

## Support Courses

| Course Name                     | Equivalent   | Credit | Grade |
|---------------------------------|--------------|--------|-------|
| CHEM 121 - General Chemistry I  | CHM 140 @ TC |        |       |
| CHEM 122 - General Chemistry II | CHM 141 @ TC |        |       |

## Chemistry or Physics Sequence

One of the following sequences (which best matches requirements of student's intended professional program):

### Chemistry

| Course Name                     | Equivalent   | Credit | Grade |
|---------------------------------|--------------|--------|-------|
| CHEM 251 - Organic Chemistry I  | CHM 234 @ TC |        |       |
| CHEM 252 - Organic Chemistry II | CHM 235 @ TC |        |       |

### Non-Calculus Physics

| Course Name                          | Equivalent   | Credit | Grade |
|--------------------------------------|--------------|--------|-------|
| PHYS 131 - Physics I (Non-Calculus)  | PHY 101 @ TC |        |       |
| PHYS 132 - Physics II (Non-Calculus) | PHY 102 @ TC |        |       |

### Calculus-Based Physics

| Course Name                                               | Equivalent   | Credit | Grade |
|-----------------------------------------------------------|--------------|--------|-------|
| PHYS 161 - Physics I: Mechanics and Heat                  | PHY 106 @ TC |        |       |
| PHYS 162 - Physics II: Electromagnetism, Waves and Optics | PHY 107 @ TC |        |       |

## Additional Requirements for the B.A. Degree

### Foreign Language

Students must demonstrate elementary competence in a foreign language. For more information, see the B.A. Degree Requirements within the Academic Regulations section of this catalog.

### One of the following:

| Course Name                                                   | Equivalent   | Credit | Grade |
|---------------------------------------------------------------|--------------|--------|-------|
| HTSC 230 - Community Health                                   | HTH 110 @ TC |        |       |
| HTSC 310 - Principles of Epidemiology for the Health Sciences |              |        |       |
| PHIL 213 - Health Care Ethics                                 | PHL 106 @ TC |        |       |
| SOCI 343 - Health, Illness and Care                           |              |        |       |
