NORTH CENTRAL COLLEGE CLASS OF 2016

FIRST DESTINATION REPORT

SUMMARY

Each year, North Central College publishes First Destination Outcomes for the prior year's graduating class as one of many indicators of perceived value, student achievement and institutional effectiveness. This annual assessment gathers information about undergraduate student employment, service and continuing education within 6 months of graduating with their bachelor's degree. Results of the survey are used by the Office of Career Development to benchmark against regional and national trends and are sought after by a number of other internal and external stakeholders. The following report includes highlights from the North Central College Class of 2016 First Destination Survey.

METHODOLOGY

A total of 665 students that graduated between September 2015 and June 2016 were included in this survey cohort. An initial survey was provided to all students just prior to graduation with follow-up surveys and research for graduates missing data up to 6 months after. Surveys were made available online and in paper format. Follow-up included emailed and phone surveys as well as data sources including student records, alumni records, LinkedIn, and input from staff and faculty.

STANDARDS AND PROTOCOLS

North Central College has adopted the National Association of Colleges and Employers (NACE) Standards and Protocols for survey design, data collection, and trend reporting. NACE is the preeminent national organization focused on the employment of the college educated. These standards and protocols define the terms for each graduating class, reporting categories, timeline for data collection, and appropriate data sources. Incorporating these standards and protocols allows us to benchmark against nearly 300 schools using these same guidelines. Summary data for the Class of 2016 was provided to NACE to contribute to the tracking and sharing of national trends.

KNOWLEDGE RATE

The term "Knowledge Rate" defines the percent of graduates for which the institution has reasonable and verifiable information concerning the graduates' post-graduation career activities. Self-reported information from survey responses and follow-up data collection yielded a Knowledge Rate of 91%. This rate is significantly above the NACE recommended target of 65%.

OUTCOME RATE

The term "Outcome Rate" refers to the percentage of graduates who are employed (full time or part time), participating in a program of voluntary service, serving in the U.S. Armed Forces, and/or enrolled in a program of continuing education. Calculation of this percentage compares the number of graduates within these categories against all graduates for whom we were able to gather information. In those cases where a graduate reported more than one activity, only the primary activity was included in the calculation. Graduates that reported that they were not currently seeking employment or continuing education were not included in the calculation. The Outcome Rate for the North Central College Class of 2016 is 95%.

SUPPLEMENTAL ASSESSMENT

The NCC 2016 First Destination Survey included items beyond those established by NACE standards. These supplemental efforts were intended to gather additional information from students regarding their participation in internships and student teaching, service satisfaction, and relevance of their outcome to their major. These additional items were not included in follow-up surveys and are presented as results from a sample population. These items may vary from previous or future reports depending on institutional needs.

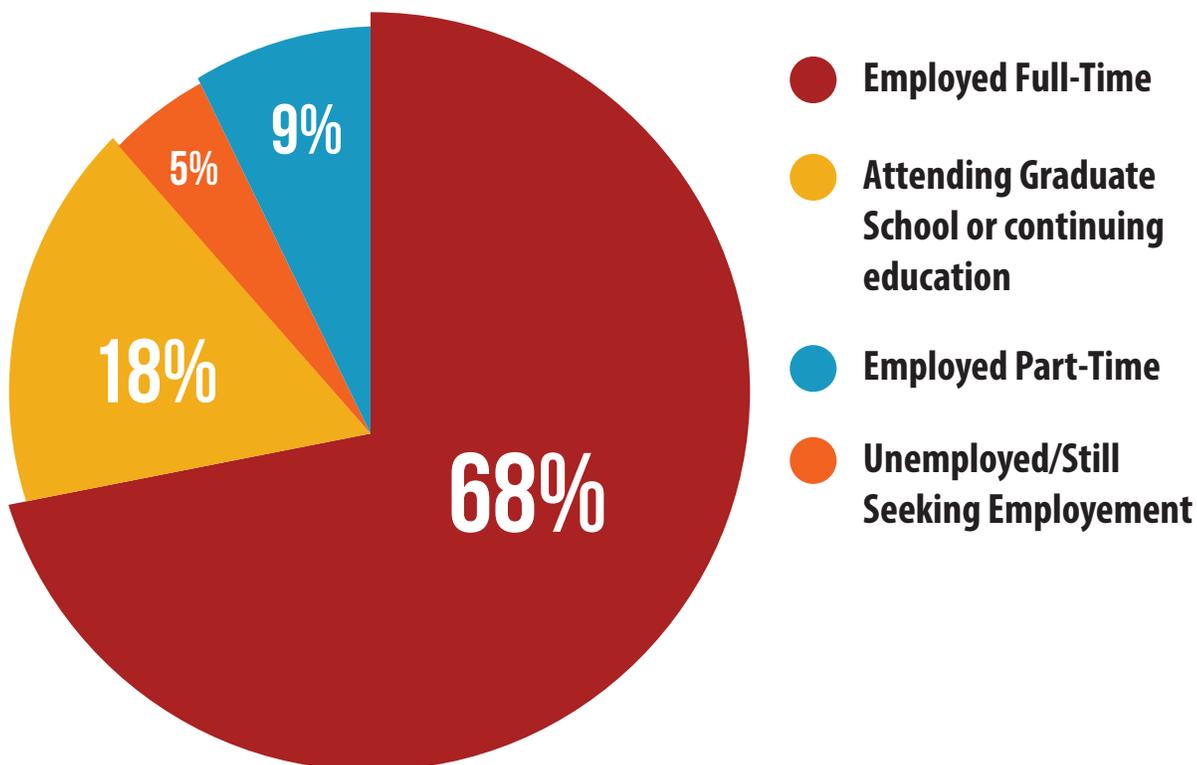

CLASS OF 2016 OUTCOMES

95% of the Class of 2016 who were contacted are either employed (full or part-time), attending graduate school, participating in post graduate volunteer or service activities, or serving in the military.

This does not include the 14 students who reported that they were not seeking post-graduate opportunities at the time they were surveyed.

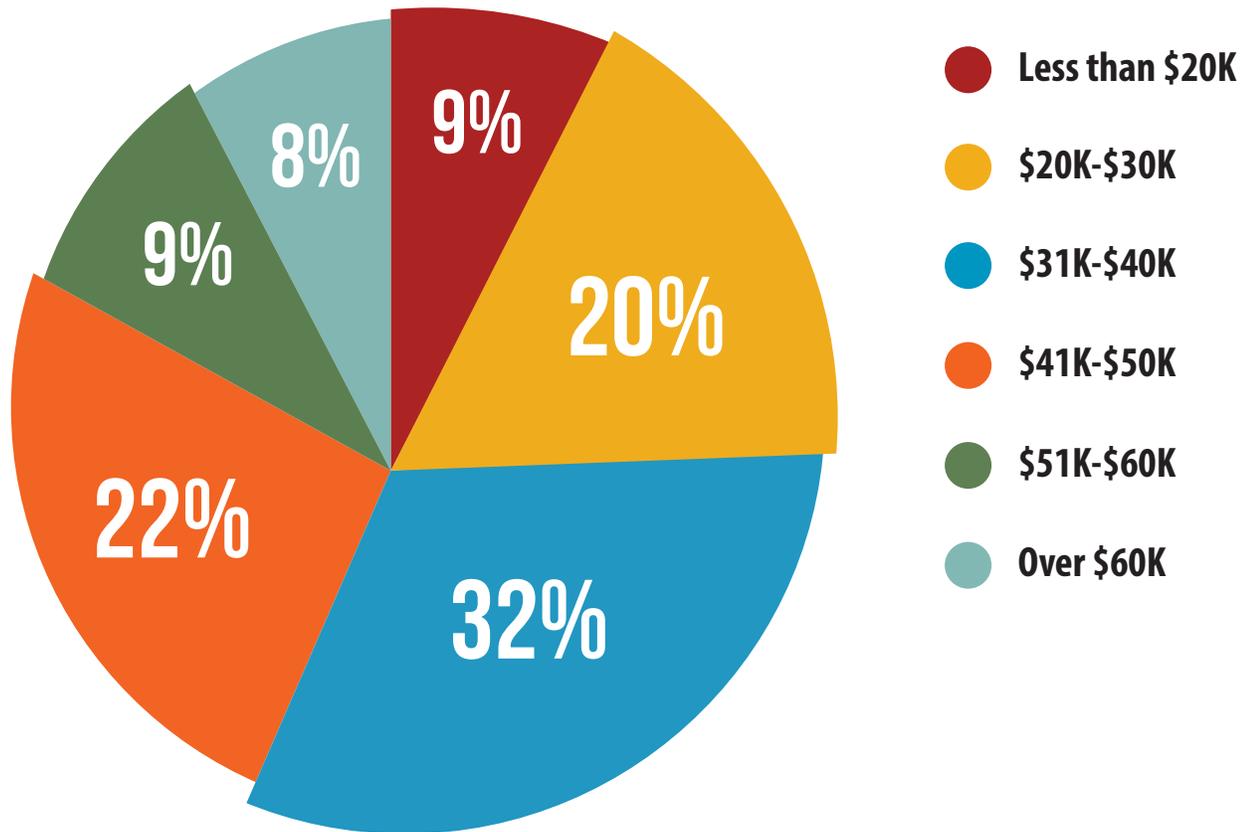

The Class of 2016 yielded a Knowledge Rate of 91% (608).

404 (68%)	Employed Full-Time <i>Includes 8 graduates participating in full-time volunteer or service programs</i> <i>Includes 3 graduates enlisted in the Military</i>
105 (18%)	Attending Graduate School or continuing education
53 (9%)	Employed Part-Time <i>18 Graduates within major</i> <i>35 Graduates NOT within major</i>
32 (5%)	Unemployed/Seeking Employment

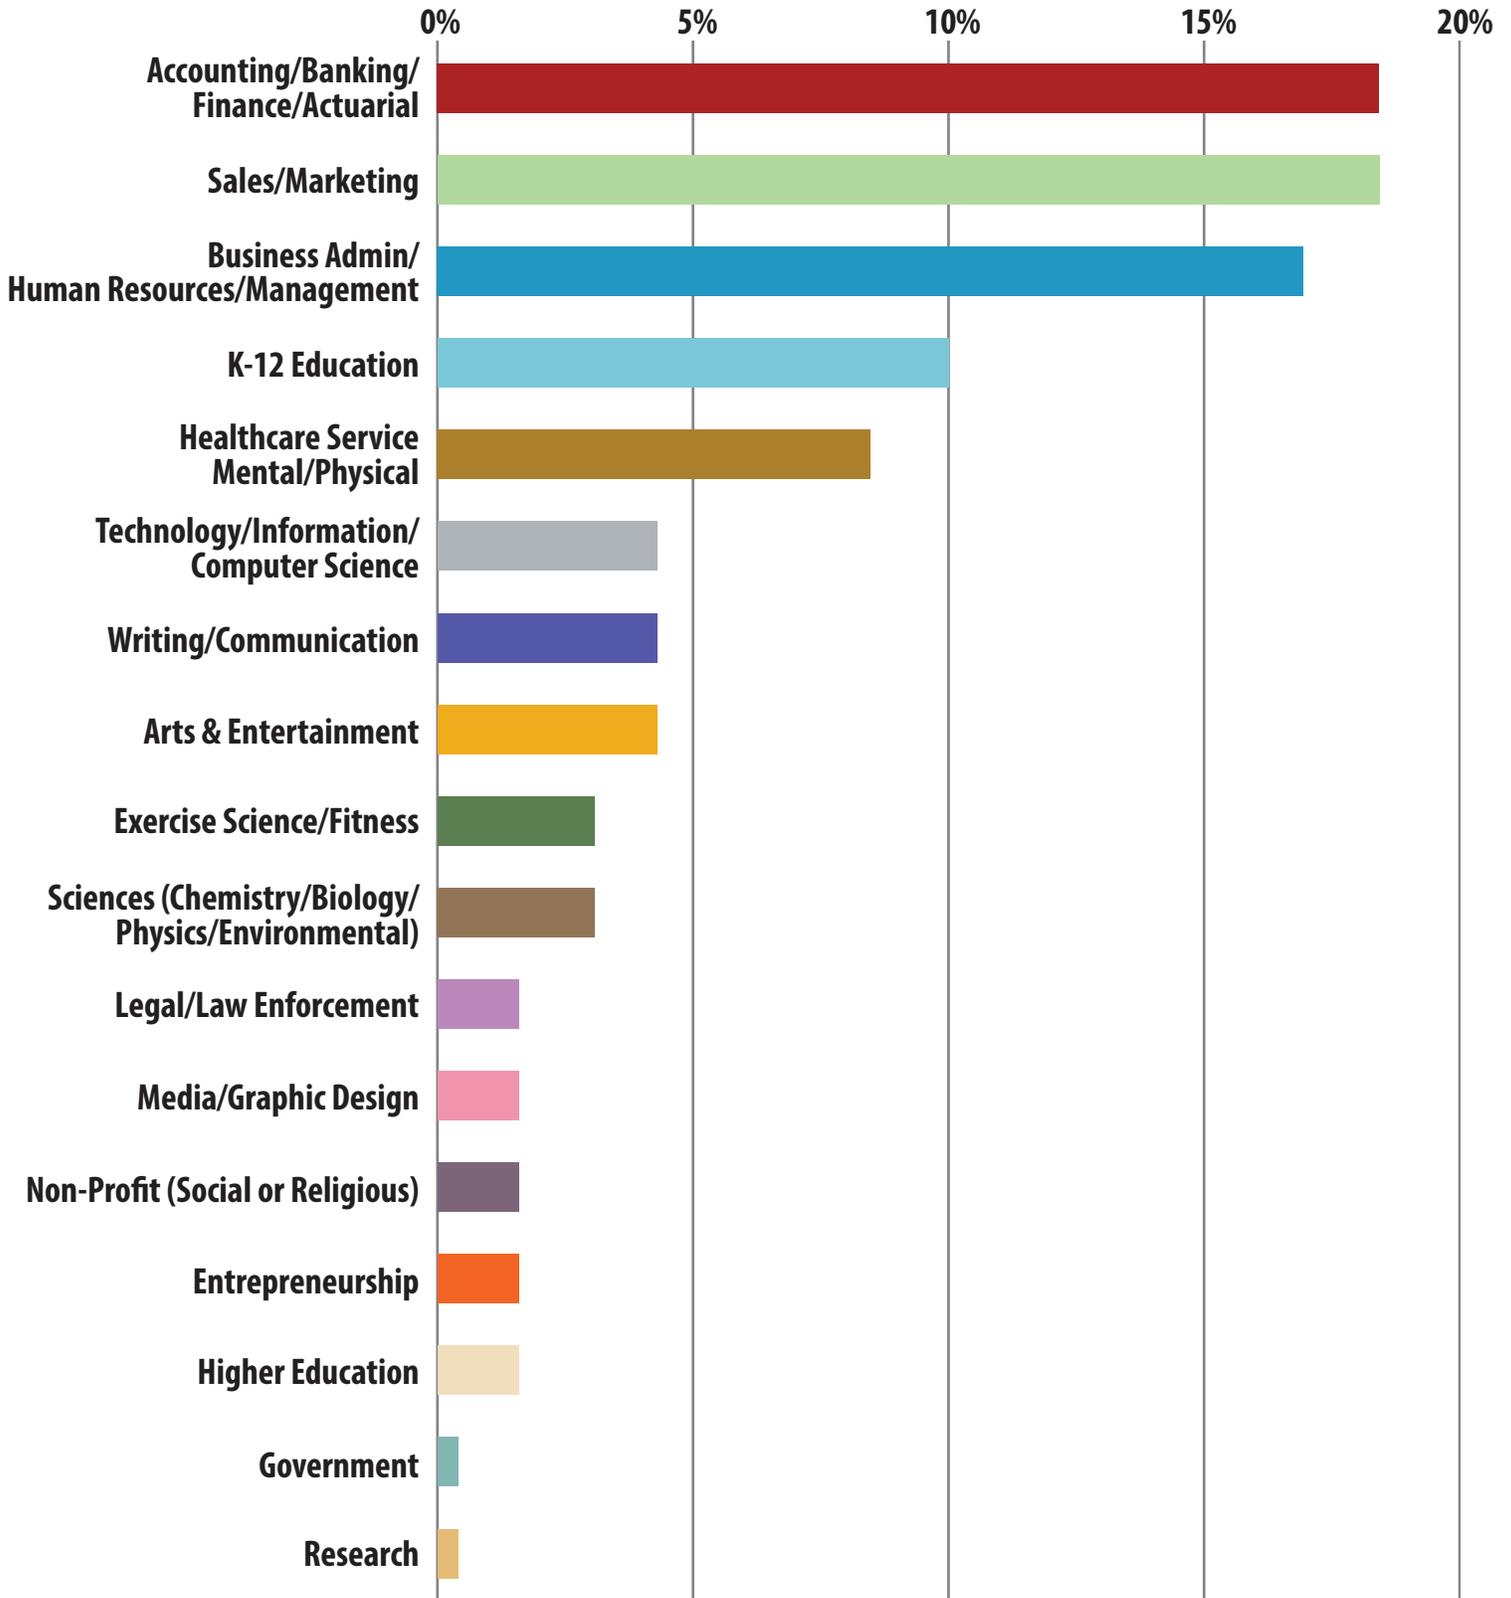

REPORTED ANNUAL BASE SALARY

FULL-TIME ONLY

The Class of 2016 reported a median annual base salary of \$31K-\$40K

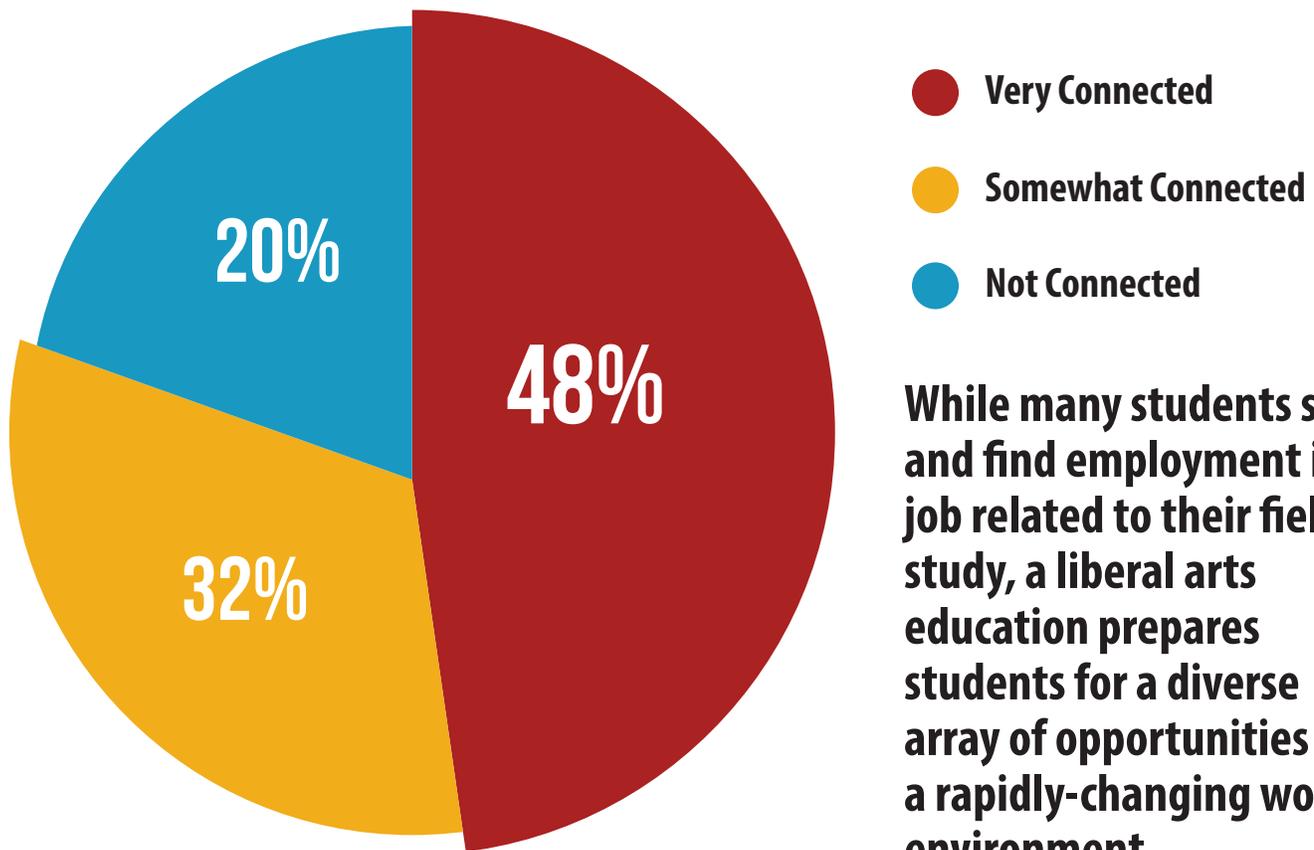

EMPLOYMENT FIELDS

EMPLOYMENT

AS RELATED TO FIELD OF STUDY

80% of the members of the Class of 2016 who responded to this question stated that their full-time or part-time job relates to their North Central major or field of study

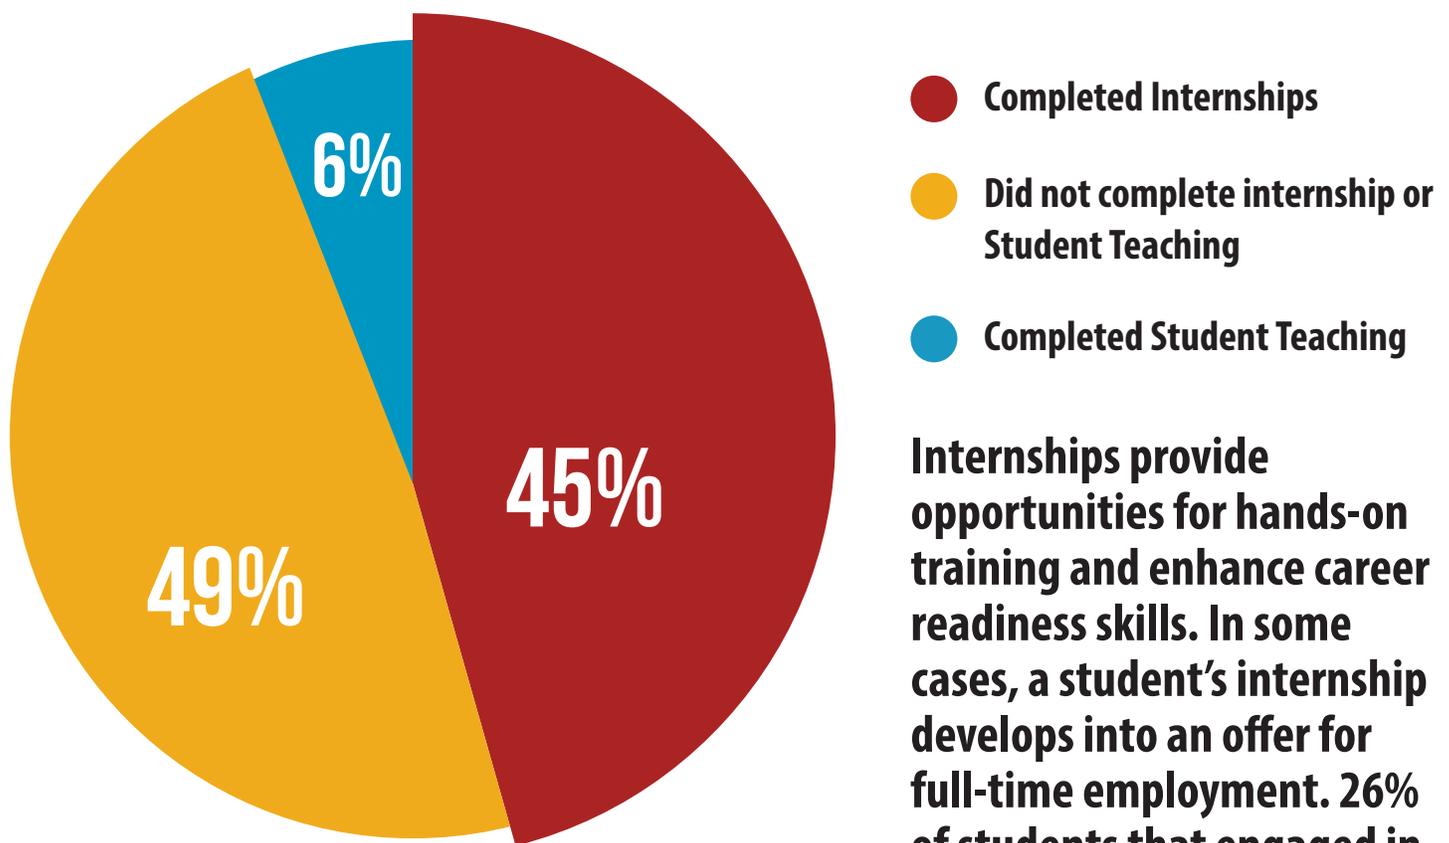

While many students seek and find employment in a job related to their field of study, a liberal arts education prepares students for a diverse array of opportunities in a rapidly-changing work environment.

INTERNSHIP/STUDENT TEACHING

PARTICIPATION BY THE CLASS OF 2016

45% of the Class of 2016 participated in a for-credit or non-credit internship sometime during their four years in college. An additional 6% completed Student Teaching

76% of students who responded reported that these opportunities provided skills and experiences that helped them obtain their first job

Internships provide opportunities for hands-on training and enhance career readiness skills. In some cases, a student's internship develops into an offer for full-time employment. 26% of students that engaged in an internship received job offers from their internship site.

GRADUATE PROGRAM ACCEPTANCE

15% of graduates applied to attend graduate school for the 2016-2017 academic year
** This does not include other forms of continuing education*

97% of those who applied had been accepted
** This does not include 4 pending applicants*

97% indicated that their graduate program is very connected or somewhat connected to their undergraduate field of study
