Date:

#### Art Education, B.A.

Art education majors develop problem-solving skills and creative design thinking strategies through analysis, critique and creation of works of art. Students explore a range of media in foundational studio courses and refine their art practice in advanced courses, culminating in a senior art exhibition. Students pair the major with secondary education and are prepared for K-12 Art Teaching Certification as well as a wide range of teaching possibilities in community art centers, children's museums, art museums, parks and recreation departments and arts organizations.
