First Destination Report Class of 2017

Summary

Each year, North Central College publishes First Destination Outcomes for the prior year's graduating class as one of many indicators of perceived value, student achievement and institutional effectiveness. This annual assessment gathers information about undergraduate student employment, service and continuing education within 6 months of graduating with their bachelor's degree. Results of the survey are used by the Office of Career Development to benchmark against regional and national trends and are sought after by a number of other internal and external stakeholders. The following report includes highlights from the North Central College Class of 2017 First Destination Survey.

Methodology

A total of 668 students that graduated between September 2016 and June 2017 were included in this survey cohort. An initial survey was provided to all students just prior to graduation with follow-up surveys and research for graduates missing data up to 6 months after. Surveys were made available on-line and in paper format. Follow-up included email and phone surveys as well as data sources including student records, alumni records, LinkedIn, and input from staff and faculty.

Standards and Protocols

North Central College has adopted the National Association of Colleges and Employers (NACE) Standards and Protocols for survey design, data collection, and trend reporting. NACE is the preeminent national organization focused on the employment of the college educated. These standards and protocols define the terms for each graduating class, reporting categories, timeline for data collection, and appropriate data sources. Incorporating these standards and protocols allows us to benchmark against over 300 schools using these same guidelines. Summary data for the Class of 2017 was provided to NACE to contribute to the tracking and sharing of national trends.

Knowledge Rate

The term "Knowledge Rate" defines the percent of graduates for which the institution has reasonable and verifiable information concerning the graduates' post-graduation career activities. Self-reported information from survey responses and follow-up data collection yielded a Knowledge Rate of 97%. This rate is significantly above the NACE recommended target of 65%.

Outcome Rate

The term "Outcome Rate" refers to the percentage of graduates who are employed (full-time or part-time), participating in a program of voluntary service, serving in the U.S. Armed Forces, and/or enrolled in a program of continuing education. Calculation of this percentage compares the number of graduates within these categories against all graduates for whom we were able to gather information. In those cases where a graduate reported more than one activity, only the primary activity was included in the calculation. Graduates that reported that they were not currently seeking employment or continuing education were not included in the calculation. The Outcome Rate for the North Central College Class of 2017 is 92%.

Supplemental Assessment

The North Central College 2017 First Destination Survey included items beyond those established by NACE standards. These supplemental efforts were intended to gather additional information from students regarding their graduate school acceptance, participation in internships and student teaching, outcome satisfaction, and relevance of their outcome to their major. These additional items were not included in follow-up surveys and are presented as results from a sample population. These items may vary from previous or future reports depending on institutional needs.

Luis Tello

Major: *Sociology*

Internship: *Casa Italia*

First Destination: *Master of Urban Planning and Policy
at the University of Illinois at Chicago*

Chloe Boden

Majors: *Psychology and Sociology*

Internship: *Livingston County Special Services Unit*

First Destination: *Master of Social Work at
Aurora University*

"I was able to secure an internship at a social services agency with the help of North Central faculty, and that has set me up well for my future career as a social worker."

— Chloe Boden

Class of 2017

Outcomes

Outcome Rate - 92%

92% of the Class of 2017 are either employed (full or part-time), attending graduate school, participating in post graduate volunteer or service activities, or serving in the military.

The Class of 2017 yielded a Knowledge Rate of 97%

Outcomes do not include the 14 students who reported that they were not seeking post-graduate opportunities at the time they were surveyed.

Stephanie Passialis

Major: *English*

Minor: *Interactive Media Studies*

Internship: *Minerva Rising Press*

First Destination: *Assistant Editor at
Minerva Rising Press*

Anthony Ashner

Major: *Interactive Media Studies*

Minor: *Marketing*

Internships: *Phoenix Closures and
Pesola Media Group*

First Destination: *Graphic Designer at RLD Creative*

"North Central College helped set me up to achieve my future goals through the wonderful academic and extracurricular opportunities that have helped me build the necessary portfolio I need when applying for jobs. The graphic design academic curriculum has also taught me the necessary technical skills, as well as professional development skills, to set myself up effectively for the future."

— Anthony Ashner

Reported Annual Base Salary Full-Time Only

Top Ten Employment Fields Full-Time Only

Katie Dickson

Majors: *Social Science/History and Secondary Education*

Student Teaching: *Plainfield South High School*

First Destination: *Social Studies Teacher at St. Charles North High School*

Christian Chacon

Majors: *Physics and Secondary Education*

Internship: *Droplet Measurement Technologies*

Student Teaching: *Metea Valley High School*

First Destination: *Science Teacher at St. Vrain Valley Schools*

"North Central has delivered on preparing me as a future educator and for achieving my future goals. My education has propelled in me the desire to be a lifelong learner while also equipping me with the skills necessary to be successful, such as hard-work, time management, resilience and discipline."

— Christian Chacon

Internships & Student Teaching

51% of the Class of 2017 participated in a for-credit or noncredit internship sometime during their four years in college.

An additional 7% completed Student Teaching.

Internships provide opportunities for hands-on training and enhance career readiness skills. In some cases, a student's internship develops into an offer for full-time employment.

75% of students who responded to this question reported that these opportunities provided skills and experiences that helped them obtain their first job.

28% of students that responded to this question received job offers from their internship site.

Alicia Casacchia

Major: *Physics*
Minor: *Math*

Internships: *Scripps Institution of Oceanography, Fermi National Accelerator Laboratory, and Lawrence Berkeley National Laboratory*

First Destination: *Doctorate in Mechanical Engineering at the University of Texas, Austin*

Ryan Suby

Major: *Applied Math*
Minor: *Computer Science*

Internship: *Illinois Department of Transportation*

First Destination: *Financial Analyst and Actuary at Zurich North America*

Taylor Spino

Major: *Math*
Minors: *Computer Science and Spanish*

Internships: *Math Research at the University of Hawaii and the Florida Institute of Technology*

First Destination: *Doctorate in Statistics at Penn State*

“My professors helped me throughout my four years to become the strongest mathematician I could be and to be well prepared for graduate school.”

— Taylor Spino

Graduate Programs

Acceptance & Graduate Schools

18% of total graduates applied to attend graduate school for the 2017-2018 academic year.

**This does not include other forms of continuing education.*

93% of those who applied were accepted

**This does not include 31 pending applicants at the time of survey.*
