

# AFFIDAVIT OF FINANCIAL SUPPORT

*This form must be properly completed in its entirety.*

**NORTH CENTRAL**  
1861

In accordance with the U.S. Department of Homeland Security (DHS) regulations, North Central requires that all international applicants show proof of sufficient funds to cover expenses for at least one full year of study. This can be done with the applicant's personal savings or by sponsorship. Either way, it is assumed that similar funding is available for the applicant's entire program of study at North Central. In addition to meeting all academic requirements for admission to North Central, the international applicant must submit this Affidavit of Financial Support, along with a recent bank statement, before becoming eligible to receive the I-20 visa form.

**Summer Session:** International undergraduate students are not required to attend summer session. If an international student decides to do so, they will pay tuition based on the number of credits taken. This tuition is in addition to the amount shown above for the academic year.

**Family Members:** International students should calculate an additional \$5,000 per year in living expenses for a spouse and \$2,500 per year for each dependent child. Family members accompanying students in F-1 status will receive I-20s for F-2 status and will not be allowed to work in any type of employment.

**Important note:** The expenses listed above are only estimates and actual costs may be higher. North Central reserves the right to make changes to tuition, fees, and other charges at any time. Applicants/Sponsors should expect and plan for an annual increase, of up to 5%, in tuition and fees each academic year.

**Scholarships as Taxable Income:** Every international student is required to file a tax return as a condition of their visa, but not everyone will pay taxes to the U.S. government. Scholarships from North Central may have tax implications for international students as determined by the Internal Revenue Service (IRS) of the United States. The U.S. government considers any amount of scholarship received **that is in excess of tuition** as taxable income.
