TENTATIVE DATES

& Prof. William Muck

#### Course Description

---

This course will provide a broad overview of democracy and globalization. Specifically, the course will examine the European Union and the challenges it faces from a populist backlash that is threatening the economic and political order the European Union was founded upon. Created as a way to integrate European economies and prevent another World War, the European Union now faces questions about its own survival as it struggles to contain the forces of economic and political nationalism. This course is an examination of the European Union's institutions of economic and political integration as well as the forces seeking to pull that very system apart. Greece, the birthplace of democracy and western values and institutions, represents the poster child of this crisis. As such, Greece will serve as a case study for understanding the current challenges facing the European Union and its member states.
