

2023-24 Request for Additional Assistance

Student Name: _____ Student ID: _____

North Central College partners with students to create an educational opportunity that is both dynamic and affordable. We annually invest over \$50 million in financial assistance to students in the form of merit and need-based institutional awards. Our merit awards recognize the outstanding academic and personal achievements of students. Our need-based awards recognize the financial needs of our students utilizing the Free Application for Federal Student Aid (FAFSA). While we do provide our best offer based on the information we have at the time, we also understand that some circumstances cannot be described in numbers alone. This appeal process was created to allow students the opportunity to request additional assistance not already demonstrated with our merit and need-based programs. Completing this form *does not* guarantee additional assistance, as funding is limited, but we do evaluate each request carefully and equitably.

Note: If the reason for your request is due to your family's current financial situation not being reflected on your 2023-24 FAFSA, please complete our 2023-24 Special Circumstances Form found at <http://northcentralcollege.edu/financial-aid/forms>.

We do not consider a family's unwillingness to assist with educational costs or replacing loans as reasons for needing additional assistance.

Please complete all questions in the section below.

What is your planned out of pocket? _____

Do you plan to utilize student loans? Check One: Yes No

Have you pursued or secured outside scholarships? If so, how much? _____

What other resources are you anticipating to utilize to cover your educational cost?
