

NCC DPT Program Outcomes

Graduation Rate

Data below is current for the class of 2025, and will be updated when all students have satisfied graduation requirements.
Two year averages will be reported when data are available.

Graduation Rate: 85%

Our inaugural cohort graduated in Spring 2025! 85% of the students matriculating in this cohort have graduated. This does not include students who have taken additional time to complete the program, and are expected to graduate in 2026.

NCC DPT Program Outcomes

NPTE Pass Rate

Data below is current for the class of 2025, and will be updated when all students have completed the NPTE.
Two year averages will be reported when data are available.

Ultimate Pass Rate: 75%
First Time Pass Rate: 56%

The NPTE is a challenging examination that requires significant preparation by the student. At NCC DPT, we provide a variety of supports to students as they prepare for this exam. While our goal remains to have an excellent pass rate, we firmly believe that every one of our current graduates is prepared to be an excellent physical therapist, regardless of whether they pass on their first attempt.

Employment Data

Data below is current for the class of 2025, and will be updated no later than 12 months past when all students have graduated.
Two year averages will be reported when data are available.

Currently, only limited data are available on alumni employment. Exit survey data from May 2025 indicate that 80% of our graduates had secured positions in physical therapy. Formal evaluation of employment status will be available in the future.

We currently have alumni in 7 states, covering a wide variety of practice settings!

Practice Areas: Sports, Acute Care, Orthopedics, Pelvic Health, Pediatrics, Neurology
