

North Central College Financial Planning Worksheet

At North Central, one of the best ways to experience all that college life has to offer is by enjoying the independence of living in our residence halls and immersing yourself in the Cardinal community. Living on campus and enjoying a meal plan will create opportunities for you to make friends and share in unique experiences outside of the classroom.

Understanding all of the out-of-pocket expenses related to attending college will allow you to make informed decisions and prepare a financing plan accordingly. Use the [Housing & Food Options workbook](#) to help you complete this worksheet and identify your expenses and expected contribution.
